

I respectfully urge the FCC to REJECT the NAB's petition 04-160. I pay for this service...it's not free so why should the weather and traffic service be taken away? Please direct attention to more troublesome matters instead of something like this and waste people's time. You're also wasting my time because I have to take time and write to the FCC to keep from banning weather and traffic? Give me a break...worry about other issues and stop wasting my time just so the "higher ups" have something to do.
